

Virtual Workshop: "From Protein Toxins to Applied Toxicological Testing"

Oct. 21-22, 2020

Event Page: <https://hesiglobal.org/event/patb-committee-protein-toxins-workshop/>

Suggested Reading Materials:

- "Evaluation of protein safety in the context of agricultural biotechnology" review article, Delaney et al. 2008. [Food Chem Toxicol., 46, Suppl 2: S71-97](#) – this explains the link to protein toxicity.
- Publication from the HESI PATB committee from an initial pilot work in collaboration with UTMB to understand how protein toxins relate to each other: [Negi et al. 2017. Sci Rep 7: 13940](#) (open access)
- EFSA External Scientific Report: "[Literature Search: Exploring in-silico protein toxicity prediction methods to support food and feed RA](#)" (open access).
