Syril Pettit, DrPH

Executive Director, HESI

Dr. Cyril Pettit is the Executive Director of the international nonprofit, HESI (Health and Environmental Sciences Institute). This organization's mission is to identify and resolve global health and environmental challenges as a collaborative effort between academic, government, industry, and NGOs scientists. She received her DrPH from UNC Gillings School of Global Public Health and her specialties include public health, patient quality-of-life issues, collaborative science, and nonprofit leadership.
